

REFILLABLE BULK SOAP THREATENS THE HEALTH OF WASHROOM USERS.

AND YOUR GOOD RELATIONSHIPS WITH CUSTOMERS.

Refillable bulk soap is the kind typically poured from a gallon jug of soap into a dispenser reservoir. One out of four refillable bulk soap dispensers are contaminated with illness-causing bacteria.¹

The really bad news is, once dispensers become contaminated, they can't be cleaned, even with bleach. The bacteria re-grows. Contaminated dispensers need to be replaced in order to protect human health.²

25x

Washroom users can have **25 TIMES** more germs on their hands **AFTER** washing with contaminated soap.³

BEFORE AFTER

Actual petri dish photos

Messy, labor-intensive and contamination-prone. Refillable bulk soap dispensers work against your efforts to create a clean, healthy and productive building environment. Fortunately, there's a better way.

GOJO® SANITARY SEALED™ SOAP SYSTEMS ARE THE SAFE, SMART, SUSTAINABLE ALTERNATIVE.

SAFE – Factory-sealed refills reduce the threat of germs. Every new refill comes with a fresh nozzle, so there's no long-term exposure to the germy washroom environment.

SMART – The snap-in soap refill supports your customers' image of washroom cleanliness, cuts labor time and replacement costs and eliminates the hassle of refilling dispensers from a bulky jug.

SUSTAINABLE – The SANITARY SEALED Soap System is better for people *and* the planet. The recyclable refills use 30% less material than traditional HDPE bottles and the system includes a full portfolio of green certified and biopreferred products.

**Make the switch to safe, smart and sustainable
GOJO SANITARY SEALED Soap Systems.

REFILLABLE BULK SOAP IS A PROVEN RISK

FEVER

VOMITING

DIARRHEA

PINK EYE

The U.S. Centers for Disease Control and Prevention (CDC), Health Canada and the World Health Organization (WHO) have all recognized the bacterial contamination risk of “topping off” refillable bulk soap dispensers, and have issued guidelines against the practice.^{4,5,6} That’s why sealed soap systems such as the GOJO® SANITARY SEALED™ Soap System are used almost exclusively in the healthcare industry in North America.

Sealed soap dispensing systems are being installed in more public restrooms today because of their many advantages over refillable bulk soap, starting with the health and well-being of restroom users.
